

Congratulations Graduate!!

You have made it through the whole Creating Heaven on Earth Program. I am so proud of you and the work that you have done. What you have just completed is just the start of creating real and reliable relationships with the angels and the angelic realm. If this work has touched you, I strongly encourage you to continue the journey that will last a lifetime. The angels and angelic realm is always here with you and accessible as long as you make a conscious connection with them/it. Moving forward, I suggest that you print out all the PDF's if you have not done so already and go through all the:

- Class Recordings
- Each Week's Audios
- The Meditations
- The Weekly PDF's

ALL your class recordings are located in one playlist that only you have access to. You can find all the recordings here:
